About me:

My name is Arya Beri Argya Rasidi. I graduated from the Institute of Technology Bandung (ITB) in 2022 and have over one year of experience as a website developer. Currently, I am working at OLX Indonesia as a Frontend Web Developer, responsible for developing and maintaining the existing website. My future plan is to become a Senior Web Developer, specifically focusing on the frontend. I have skills in HTML, CSS, JavaScript, React, Next.js, and I am continuously striving to enhance my technical and professional abilities.

Working Experience

Frontend Web Developer, OLX Indonesia (Desember 2023 – sekarang)

- Develop and maintain website using HTML, CSS, React, Next.js, javascript as frontend developer
- Adjust Content Management Website from initially, it was only designed to support a single banner on the website. Now, it has been enhanced to support Android and iOS platforms and can accommodate up to 10 banners.
- Doing Rebranding Logo and path url form OLX Authos to OLX Mobbi
- Make microsite for approval payment and DO in inventory management website.

Full Stack Developer, Mobbi, (Januari 2023 – Desember 2023)

- Adjust UI for Calculator in checkout flow
- Developing UI order-to-handover flow, and the notification section (push notification, email notification)
- Make Email template
- Be a part of other development task and bug fixing

Education

- Institute Technology Bandung (ITB), Informatika (2018 – 2022)
- SMA Negeri 6 Cirebon, (2016 – 2018)
